YOUTH FIT FOR 55 NEWSLETTER

Youth engagement and education for realizing the
Green Deal on the "fit for 55" wave

VOLUME 5
NOVEMBER 2024

YOUTH FIT-FOR 55 DIGITAL HUB IS LIVE

All our resources are now freely
accessible through the Youth Fit for 55
Digital Hub.

The platform hosts:

- A Foresight Toolkit for youth educators
- A Strategic Blueprint for Youth Serving Organisations
- An Awareness Guide about Europe's Green transition
- A growing library of good practices, videos, and community contributions

The hub is available in 4 languages
and designed for ease of use,
especially by grassroots organisations
with limited technical capacity.
Explore, learn, adapt!

Multiplier Events Across 5 Countries

Between March and June 2025, project partners hosted final multiplier events in Romania, Italy, France, Ireland, and Denmark.

These events brought together over 190 youth educators, trainers, and stakeholders, offering a hands-on introduction to the project outputs and exploring how they can be adapted in various contexts.

The events sparked valuable feedback and inspired local follow-up initiatives – from organisational foresight workshops to youth-led sustainability campaigns.

Closing the Loop: From Vision to Impact

Over the past two years and a half, Youth Fit for 55 brought together youth-serving organisations, educators, and changemakers across Europe to explore how the European Green Deal and the "fit for 55" package can be translated into meaningful youth action.

Over the course of the project, partners have developed a set of high-impact learning resources tailored to the needs of the youth sector:

To conclude our journey, a comprehensive pilot survey was conducted with over 70 respondents to test the quality and usability of our final deliverables – the Foresight Toolkit, the Strategic Blueprint, the Awareness Guide and the Digital Hub.

Respondents confirmed the accessibility, relevance, and practical value of the tools, with over 90% likely to recommend them to peers.

These results confirm the project's real-world applicability and the readiness of our tools to support organisations beyond the project lifespan.
